Cllr M Martin stated that the flooding problem in the middle of Millpool from drains being blocked by leaves continues and County Councillor C Batters agreed to report the matter.

### **145 /13 Dualling the A30**

Councillor M Martin gave an update on progress of the process to finalise the contract. Persons have until November 22<sup>nd</sup> to register their interest with the Planning Inspectorate and all will be kept fully informed of future developments. Cornwall Council have stated that they have set aside a budget of £10 million.

The Clerk read the representations that he submitted on behalf of the Parish Council: Cardinham Parish Council have regularly discussed this matter at their monthly meetings. Within our Parish the A30 Temple – Higher Carblake stretch of road has been blighted by a number of serious road accidents over a number of years, some of which unfortunately have resulted in fatalities and/ or major life changing injuries. Figures compiled from the Highways Agency record this section of road has above average accident figures for a major single carriageway trunk road. It also suffers frequent tailbacks of traffic stretching many miles in both directions not only during the very busy Summer holiday season but now as frequently throughout other periods of the year. It ,being the main arterial road leading through the spine of the County creates major disruption to Cornwall's business and tourist economy. Tourist information from Visit Cornwall states that the vast majority of visitors choose to drive to our County mainly for the convenience of getting around Cornwall but their adverse comments frequently refer to the frustration of sitting in 10-12 mile traffic jams on the A30 ! The area around Temple is part of Bodmin Moor and is often affected by localised extremes of weather and continuation of the dual carriageway through this stretch would make it a much safer road to travel.

The current road is not fit for purpose in this 21<sup>st</sup> century and it clearly fails in the safety criteria required for modern day road users.

### **146 / 13 Emergency Plan**

Cllr S Smart advised that a sub-committee should be formed to draft an emergency plan for the village to ensure that the villages were aware of a procedure was in place should a 'disaster' type incident happen in the vicinity. The Clerk stated that he had a copy of the 54 page document prepared by St Erme Parish Council to assist councillors.
